John W Scott, MD MPH @DrJohnScott · Apr 23, 2020

A better conclusion?
- "Among the 1,151 pts who were mechanically ventilated, at a median follow up of 4.5 days, 3% had gone home, 25% had died, & 72% were still in the hospital".
- "The eventual mortaily rate will thus range between 25% (282/1151) and 97% (1113/1151)." 👇 (5/7)
